LinkedIn: <https://www.linkedin.com/in/justin-fussell>

Location: Cape Town, South Africa

Professional Summary

Computer and Information Sciences student with hands-on experience building web, mobile, and desktop applications through academic projects and practical learning. Exposure to Python, Java, JavaScript, C#, and tools such as Git, Visual Studio, and Microsoft Azure. Gained experience developing and deploying MVC web applications and working with cloud services. Passionate about solving real-world problems through technology, with a focus on creating meaningful and practical solutions. Seeking internship, junior, or entry-level opportunities to grow, contribute, and develop strong industry skills.

Professional Memberships

Student Member

Institute of Information Technology Professionals South Africa (IITPSA)

2026(March) – Present

- Official student member with certificate of membership.

Personal Summary

I'm someone who values growth, honesty, and doing things properly. I tend to approach life by trying to understand how things work, whether that's solving problems, learning something new, or improving on something I've done before.

I'm naturally patient and consistent, and I take pride in showing up and putting in effort even when something is challenging. I don't expect to know everything, but I'm always willing to learn, ask questions, and improve over time. I also care about people and the impact my actions have on others. I try to be reliable, respectful, and someone others can trust, whether I'm working independently or as part of a team.

Overall, I'm focused on becoming a better version of myself while contributing in a way that is meaningful and positive.

Technical Skills & Exposure To-

Programming Languages:

Python, Java, JavaScript, C#, Kotlin, HTML5, CSS3

Frameworks & Technologies:

ASP.NET Core MVC, .NET Framework, React Native, PyTorch (Basic)

Cloud & Databases:

Microsoft Azure (Web App Service, Azure SQL Database, Blob Storage)

SQL Server, MySQL, Oracle, MongoDB, SQL Server Management Studio (SSMS), RoomDB (Android) (*Exposure*)

Development Tools:

Git, GitHub, Visual Studio, Visual Studio Code, Android Studio, NetBeans

Software Development Concepts:

MVC Architecture, Agile Development/Methodologies, Cloud Computing, UI/UX Principles

Other Tools & Skills:

Microsoft Office, Google Workspace, Cross-Browser Compatibility, Software Documentation

Continuous Learning & Professional Development

- Currently completing the **Responsive Web Design Certification (FreeCodeCamp)**, building a strong foundation in **HTML, CSS, layout design, and responsive web principles**, with a focus on creating user-friendly and accessible interfaces.
- Exploring structured learning paths on **Microsoft Learn**, focusing on **Azure fundamentals and .NET development**, while gaining an understanding of cloud-based application deployment and services.
- Regularly engaging in **self-directed learning** through platforms such as **Codecademy and Scrimba**, reinforcing concepts through hands-on exercises, coding challenges, and small practical implementations.
- Actively developing the habit of researching, troubleshooting, and applying new concepts independently to strengthen problem-solving skills and technical confidence.

Education

Emeris (formerly The IIE's Varsity College), Cape Town

Bachelor of Computer and Information Sciences in Application Development

Expected Completion: **November 2024 - 2026**

Emeris (formerly The IIE's Varsity College), Cape Town

Higher Certificate in Mobile Applications and Web Development

Completed: 2023 (Distinction)

Cambridge International High School Certificate

Baobab College, Lusaka, Zambia

2019 – 2022

- Completed IGCSE (International General Certificate of Secondary Education) with strong results across core subjects including Mathematics, English, Sciences, and Humanities.
- Progressed to Advanced Subsidiary (AS) Level and A-Level studies, focusing on subjects relevant to computing and analytical thinking.
- Developed strong foundation in academic discipline, research skills, and independent learning.

Passion for Community Impact

Driven by a commitment to address real-world challenges through technology, I aim to create solutions that empower underserved communities and improve everyday experiences. I am motivated to build applications that provide practical value, support users, and contribute to positive change. My goal is to continuously grow as a developer while using technology to make a meaningful impact.

Key Projects

Academic Software Development Projects

Emeris (formerly The IIE's Varsity College) | Cape Town | 2023 – Present

- Built and deployed console, web, and mobile applications during Higher Certificate and bachelor's programs, utilizing deep research and AI tools to enhance project efficiency.
- Developed console applications and Windows Forms Apps using .NET Framework in Visual Studio, completing multiple functional prototypes.
- Created and deployed ASP.NET Core MVC web applications, integrating Microsoft Azure Web App Service, Azure Database Service, and Azure Blob Storage for cloud-based data management.
- Built mobile applications using React Native in Visual Studio Code and Android apps using emulators in Android Studio, delivering cross-platform prototypes.
- Technologies Used: C#, .NET Framework, ASP.NET Core, React Native, Android Studio, Visual Studio, Visual Studio Code, Microsoft Azure, Git

Team Leader – Website and Mobile App University Project

Emeris (formerly The IIE's Varsity College) | Cape Town | 2024

- Led a team of four to design and develop a web and mobile application using Agile methodology, ensuring project completion ahead of schedule.
- Managed tasks, conducted UX research, and delivered technical presentations to superiors.
- Implemented core modules using HTML, CSS, JavaScript, and Kotlin, ensuring cross-browser compatibility.

Technologies Used: HTML, CSS, JavaScript, Kotlin, GitHub

Personal Budget Tracker Mobile App (MoneyQuest)

Group Academic Project | Bachelor of Computer and Information Sciences Emeris (formerly The IIE's Varsity College), Cape Town | 2026

- Collaborated in a team of 6 to design and develop **MoneyQuest**, a user-friendly Android personal budget tracking application using **Kotlin** and **Jetpack Compose**.
- Responsible for the complete implementation of the **Add Expense** screen, including amount input, dynamic category selection with icons, date picker, custom category creation, receipt camera integration, and form validation.
- Actively participated in team collaboration using **GitHub Desktop** with individual feature branches and regular merges into the main branch.
- Contributed to project planning, Figma UI/UX design, code reviews, and integration of **RoomDB** for local data persistence (with future implementation of Firebase planned for final part of submission).
- Participated in regular team meetings via **Microsoft Teams**, **Google Meet**, and in-person sessions to discuss progress, resolve issues, and align on requirements.

Technologies & Tools: Kotlin, Jetpack Compose, Git/GitHub, RoomDB, Firebase, Android Studio, Figma.

GitHub Repository: <https://github.com/EMWCCN-2026-PROG7313/prog7313-part1-g1-moneyquest.git>

Professional Experience

Software Development Intern – One-on-One Mentorship

SOUL Technology | Cape Town, South Africa | July 2025 – Present

- Learning directly from the owner and Software Engineer in a one-on-one mentorship environment.
- Gaining practical exposure to **ASP.NET MVC projects** using **Visual Studio**.
- Assisting with small development tasks such as UI updates, code changes, and fixing basic issues.
- Receiving basic exposure to **Microsoft Azure**, including web app deployment and cloud service integration.
- Building confidence in **C#**, Git, and understanding real-world development workflows.
- Developing problem-solving skills through research and practical hands-on experience.

Skills: C#, ASP.NET MVC (Beginner), Visual Studio, Git, Azure (Basic Exposure)

Au Pair – Childcare for Two Families

Cape Town, South Africa | 2023 – 2025

- Provided academic and daily support for children aged 4–12.
- Assisted with homework, routines, and structured activities.
- Developed strong communication, patience, and time management skills.

Skills: Communication, Time Management, Responsibility

Certifications

- **Higher Certificate in Mobile Applications and Web Development**
Emeris (formerly The IIE's Varsity College), Cape Town
Completed: 2023 (Distinction)
- **Baobab College Certificate of Graduation**
Baobab College, Lusaka, Zambia
- **SAQA Evaluated Qualifications**
Cambridge International GCE, IGCSE, Advanced Subsidiary (AS) Level, and A Level Certificates
